**TOMOAE :** In Japanese "TOMOAE" means whirlpool or a circular motion. Whirlpool never stops neither does a child's development. A Japanese school of the same name was the inspiration for **TOMOAE Amravati**. The school provided every child the congenial environment for learning. It made a difference in the field of teaching – learning. Tomoae's founder director dreamt of the same school in India, and realized that dream in **TOMOAE Montessori : A house of children**

Tomoae school's logo depicts the Yin-Yang philosophy it says that "Opposite or contrary forces are complementary, interconnected and interdependent" The school strives to maintain a perfect balance of emotional and intellectual development of a child.

#### Founder Director's message :

"The mission of Tomoae school is to mould every child into a good human being. We try to inculcate maximum ideological and societal values."

-Mrs. Jayamala Jadhav

#### The journey in time :

The legacy of Tomoae was started in the year 2001 by **Mrs. Jayamala Jadhav** under the strong support and guidance of **Mr. Jayawant Jadhav**. Her residence was chosen as the first environment for initiating a new venture - **Tomoae Montessori : A house of children**

A few students and a handful of dedicated teachers shared her dream. Since then the school has never looked back and has proven itself the best known school in Amravati. The journey started with one Montessori environment and now we have five different environments for Montessori school at the center of the city and one for high school (Std I to X) in the lap of nature at Kathora village, Amravati. This co-education English medium school is truly top notch.

School is affiliated to the **Council of Indian School Certificate examination (CISCE)** It issues certificates **ICSE** (Indian certificate of secondary education) to the students of std X and **ISC** (Indian school certificate), to the students of std. XII.

#### About ICSE syllabus :

The syllabus is strong in basics. This gives the student a lot of confidence when higher studies are involved. As the basics are strong, half the work is done. It allows the school to evolve its own niche. It allows freedom to experiment with new ideas and practices. It is focused on English Language and literature. It enables the child to face the competitive exams easily. Importance is given to projects which improve thinking ability and make children active learner. It motivates children towards excellence. Children do not study for marks but instead study for knowledge. Exams are more of application rather than of rote learning. There is a balance between subjective and objective questions.

#### AIM

- To mould and groom a child for a lifetime of creative thinking and learning, so that a child may develop as a complete human being.
- To promote national integration and to enhance moral and spiritual values.
- To identify latent talent and provide scope for the development of the same.
- To help develop a good personality by providing an environment for all round development.
- To provide scope for imaginative ideas.
- To provide scope for slow learners.
- To make each and every child happy, interested, motivated and confident to enjoy the learning process.
- To provide an environment that is challenging and stimulating, peaceful and calm, happy and caring, encouraging, appreciative and welcoming and provides equal opportunities and a positive learning atmosphere.

#### Academic Performance :

When it comes to academics the performance of Tomoae school is truly top notch. The school has shown very good academic results both in quality and quantity and will continue to do so. We pride ourself in producing Vidarbha's toppers in ICSE for the last few years. Students of Tomoae have been admitted to major institutions of India. The success rate in ICSE is 100%.

#### Extra curricular activities :

We try to groom a child beyond academics. Teachers work closely to identify and nurture latent potential which in turn boost their overall character development.

#### Activities are :

Performing arts singing (Indian classical), dancing (Kathak), playing Indian and western instruments, concerts, Yoga and meditation, Drawing and Craft, Debate, Elocution and Declamation, Extempore, Quizzes, Seminar presentation, School cinema (value-based movies), Mass community service, visits, trips, excursions etc. Different workshops are conducted by eminent personalities on various subjects. Different and sorted assemblies are conducted to portray the upcoming talents of the children.

#### Campus :

##### Building:

A magnificent school building of three storeys has been constructed on a three acres plot 5 km. away from Amravati city with a calm, clean and beautifully cultivated ambience, surrounded by agricultural fields and gardens.

##### Classrooms :

Classrooms are airy, spacious and well lit. All the classrooms are equipped with digital boards. Colourful furniture is provided as per the need of each class group. All the classrooms are under CCTV surveillance.

##### Playground:

A huge playground is available for physical education programme. Separate playgrounds are available for various games such as Basket ball, Volleyball, Cricket, Kho-kho, Kabaddi, Badminton and Athletics. Indoor games such as Chess, Carom, Table-Tennis are also provided.

##### Laboratories:

Laboratories are the soul of any of the school. The basic assumption prior to designing these laboratories was that laboratory work is an integral and inalienable part of any educational programme and complement classroom teaching. School has rich laboratories for Physics, Chemistry, Biology, Geography, Mathematics and Computer.

##### Library :

The school library is located in the heart of the school, facilitating students, teachers, parents, and all the staff members. The School takes special note to increase the number of print volume per student. With a collection of 10,000 books and more, students get all their queries answered in the library. The diversity of resources and peaceful atmosphere helps the child to develop a positive relation with the books.
